

Acknowledgements

The author would like to express his gratitude to the following experts who have reviewed the different security technology segment reports and validated the observations before publication.

	Name	Organisation and Affiliation
1	Professor Anja Boisen	Technical University of Denmark
2	Dr. Sanjay Patel	Seacoast Science Inc., U.S.A.
3	Professor Dr. Helmut Bachmayer	Biosafety and Biosecurity Consultant, Former ESRAB member, Austria
4	Professor Nikolas A. Chaniotakis	University of Crete, Greece
5	Professor Seamus Higson	Cranfield University, U.K.
6	Valerio Pagnotta	CENG, Italy
7	Dr. Richard Kouzes	Pacific Northwest National Laboratory, U.S.A.
8	Professor Steve Haswell	University of Hull, U.K.
9	Professor Anthony Turner	Cranfield University, U.K.
10	Dr. Andy Becue	School of Criminal Sciences / Institut de Police Scientifique / University of Lausanne, Switzerland
11	Dr. Kenneth J. Klabunde	Kansas State University, U.S.A.
12	Professor Sarah C. Larsen	University of Iowa, U.S.A.
13	Dr. Rutledge Ellis-Behnke	Massachusetts Institute of Technology and University of Hong Kong
14	Dr. J.-L. Wojkiewicz	CEM- Ecole des Mines, France
15	Professor L. C. Zhang	University of Sydney, Australia

16	Dr. Y.Q. Zhu	University of Nottingham, U.K.
17	Dr Leonid Goldenberg	Fraunhofer IAP, Germany
18	Prof. Dr. T.Schalkhammer	Attophotonics Biosciences GmbH and University of Vienna, Austria
19	Dr. T.Trindade	University of Aveiro, Portugal
20	Dr. V. Sridhar	Chonnam National University, Gwangju. South Korea
21	Dr. Edward A. McKigney	Los Alamos National Laboratory, U.S.A.

The author would also like to express his gratitude to the following experts for their input to the Security technology sector by making their informed opinions available through survey questionnaire, interviews and the Observatory Nano workshop. The output from these has been presented in the applications and perspective section of the report.

	Name	Organisation/ Affiliation
1	Heloisa Mariath	Senior Scientific Advisor, Austria
2	Dr. Elena Lacatus	Polytechnic University of Bucharest
3	Dr. Sanjay Patel	Seacoast Science Inc., U.S.A.
4	Dr. Jeong-O Lee	Korea research institute of chemical technology, South Korea
5	Dr. Andy Becue	School of Criminal Sciences / Institut de Police Scientifique / University of Lausanne, Switzerland
6	Dr. D. Ravi Shankaran	Kyushu University, Japan
7	Keith Crandell	Arch Venture, U.S.A.
8	Neil Wright	C-Tech Innovation Ltd, U.S.A.
9	Dr. Patrick Gardner	Western Carolina University, U.S.A.

10	Dr. Richard Kouzes	Pacific Northwest National Laboratory, U.S.A.
11	Professor Anthony Turner	Cranfield University, U.K.
12	Prof. Dr. T.Schalkhammer	Attophotonics Biosciences GmbH and University of Vienna, Austria
13	Richard Palmer	d30, U.K.
14	Dr. Daniel Crespy	EMPA, Switzerland
15	Dr. Stan S. Swallow	Intelligent Textiles Limited, U.K.
16	Dr. Christian Mittermayr	Lambda GmbH, Austria
17	Professor Nikolas A. Chaniotakis	University of Crete, Greece
18	Dr. Edward A. McKigney	Los Alamos National Laboratory, U.S.A.
19	Professor Dr. Helmut Bachmayer	Biosafety and Biosecurity Consultant, Former ESRAB member, Austria
20	Valerio Pagnotta	CENG, Italy
21	Dr. Frank Schäfer	Fraunhofer EMI, Germany
22	Dr. Gerhard Holl	Bundeswehr, Germany
23	Dr Juergen Altmann	University of Dortmund, Germany
24	Dr Michael Decker	ITAS, FZK Karlsruhe, Germany
25	Professor Jim Darwent	University of Liverpool, U.K.
26	Dr. Volkhard Beyer	Fraunhofer Center Nanoelektronische Technologien (CNT), Germany
27	Dr. Daping Chu	University of Cambridge, U.K.
28	Dr Mostafa Analoui	Livingston Group/Charlesson Pharmaceuticals, U.S.A.
29	Dr Donald Bruce	EdinEthics, U.K.
30	Professor Seamus	Cranfield University, U.K.

	Higson	
31	Dr Tony Munter	VTT Technical Research Centre of Finland
32	Professor Dr. Cees Gooijer	VU University of Amsterdam, Netherlands
33	Dr. T.Trindade	University of Aveiro, Portugal
34	Dr. Rutledge Ellis- Behnke	Massachusetts Institute of Technology and University of Hong Kong

The author would also like to thanks Tom Crawley and Laura Juvonen from Spinverse, and Ineke Malsch from MTV for the contribution made in recording observations during the Security workshops held in Dusseldorf at the annual symposium. The author would also like to express his gratitude to all the Observatory consortium partners for the engagement and Mark Morrison for his encouragement throughout the process.
